

MAHBOOB UR RAHMAN

Cyber Security • Cloud • DevOps • AI Operations | Technology Trainer

Jhelum, Pakistan | +92 317 5770047 | mahboobkh777@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Cyber Security, Cloud, DevOps, and AI professional with a strong applied-technology foundation and an active record in technical training. Holds EduQual-accredited diplomas in Cloud Cyber Security (Level 3) and DevOps & Cloud Advancement (Level 4, Grade A), and is currently completing a Level 6 Diploma in Artificial Intelligence Operations (AIOps) — backed by CISSP-level security training. Hands-on with Docker, Kubernetes, Linux, Python automation, CI/CD pipelines, and cloud (AWS / Azure), alongside full-stack development and AI-powered automation using modern LLM APIs. Currently progressing toward a DevSecOps / Security Engineer role (certification path: BTL1 → AZ-500 → CKA/CKS → CySA+) while delivering technology training to multiple cohorts. Combines deep tooling knowledge with a proven ability to teach, mentor, and build job-ready learners.

CORE COMPETENCIES

- **Cyber Security:** Risk management, network defense, threat analysis, incident response, SIEM concepts, MITRE ATT&CK, OWASP Top 10
 - **Cloud:** AWS (ECR/ECS, cloud labs), Microsoft Azure, cloud-native architecture, Zero Trust concepts
- **DevOps:** Docker, Kubernetes (Admin / Dev / Security), CI/CD (GitLab, Jenkins, GitHub Actions), Ansible, Vagrant, Linux
 - **AI:** AI Operations (AIOps), prompt engineering, LLM/Claude APIs, AI-powered automation, generative AI tools

TECHNICAL SKILLS

Security	Cloud security models, risk management, encryption, network defense, threat analysis, incident response, CISSP domains
Cloud	AWS (ECR / ECS, AWS labs), Microsoft Azure, cloud-native, infrastructure automation
Containers	Docker (Deep Dive), Kubernetes — Administrator, Application Developer, Security Specialist, Cloud-Native
CI/CD & IaC	GitLab CI/CD, Jenkins, GitHub Actions, Ansible, Vagrant, Bash scripting, Git
Programming	Python (Automation, Selenium, Flask), JavaScript / TypeScript, SQL
AI & Tools	AIOps, prompt engineering, Claude / LLM APIs, AI automation, JIRA with Python
Web / Full-Stack	React, Next.js, Node.js, Supabase, REST APIs
Systems	Linux administration, automation scripting, virtualization

PROFESSIONAL EXPERIENCE

- Full-Stack Developer & DevOps / Cloud Practitioner** | [Independent / Project-Based](#) [Year] – Present

 - Build and deploy production web applications and cloud-hosted services using React, Next.js, Node.js, and Supabase.
 - Implement DevOps workflows: containerization with Docker, Kubernetes orchestration, CI/CD pipelines (GitLab CI, Jenkins, GitHub Actions), and Linux server administration.
 - Develop AI-powered systems and automations using LLM / Claude APIs, including a WhatsApp + AI customer-operations automation integrating WhatsApp Cloud API and Shopify Admin API (Node.js).
 - Apply cloud security and DevSecOps practices — container/image security, secrets management, and pipeline hardening.
- Technology & Digital Marketing Trainer** | [Bano Qabil Program \(BQ-001\)](#) [Year] – Present

 - Design and deliver structured, project-based technology curricula across multiple cohorts; topics include web development, AI tools, SEO, and digital marketing.
 - Produce all teaching assets in-house: presentation decks, quizzes, and student management / gradebook systems (attendance, marks, GPA/rank).
 - Deliver bilingual instruction (English deliverables, Roman Urdu in class) to mixed-ability learners, building real portfolio-ready projects.

Campus In-charge (Hifz & Nazra Department) | Dar-e-Arqam Schools, Civil Lines Campus, Jhelum[Year] – Present

- Lead an academic department: teacher development, curriculum oversight, student progress tracking, and parent communication.
- Design institutional digital tools, dashboards, and policy documentation; apply a Socratic, outcome-driven leadership style.

EDUCATION & PROFESSIONAL CERTIFICATIONS

Diploma in Artificial Intelligence Operations (AIOps) — EduQual Level 6 | Al Nafi International College | In Progress

Diploma in DevOps & Cloud Advancement — EduQual Level 4 | Grade A | Al Nafi

Diploma in Cloud Cyber Security — EduQual Level 3 | Al Nafi

CISSP — Training Completed | Advanced security concepts & theory (8 domains)

In Progress (Security Track): TryHackMe SOC Level 1 • Blue Team Level 1 (BTL1) • Microsoft AZ-500 (Azure Security)

[Your Base Degree — e.g. BS / BA] | [Institute] | [Year]

DIPLOMA COURSEWORK — DEVOPS & CLOUD ADVANCEMENT (EDUQUAL LEVEL 4)

Completed 12 hands-on, lab-based courses (AWS cloud & container labs):

- DevOps Docker Deep Dive (incl. GitLab/GitHub CI/CD, AWS ECR/ECS)
- Bash Script Deep Dive
- Python Automation Deep Dive
- Python Selenium
- JIRA with Python
- Python Flask
- Vagrant
- Ansible
- Kubernetes Application Developer
- Kubernetes Administrator
- Kubernetes & Cloud Native Associates
- Kubernetes Security Specialist

Cloud Cyber Security (Level 3) covered: cloud security models, risk management, encryption, network defense, threat analysis, and incident response.

SELECTED PROJECTS

- **SiteForge AI** — AI-powered Website-as-a-Service platform (Supabase, Vercel, AI prompt library).
- **WhatsApp + AI Automation** — Customer-operations system integrating WhatsApp Cloud API, Shopify Admin API, and Claude API (Node.js).
- **Education Management Systems** — School / Hifz platforms with progress tracking, KPIs, attendance & reporting (Next.js + Supabase).

LANGUAGES

English (Professional) • Urdu (Native) • Arabic (Working)
